

Asphalt Paving

A quality hot mix asphalt driveway that is functional and aesthetically pleasing can be built at a reasonable price!

Asphalt pavements offer many advantages including enhanced curb appeal, increased property value with routinely serviced preventative maintenance, melts snow and ice with sunlight, and improve ride quality due to its flexibility.

From new installs to replacement and overlays, we've got you covered.

Through continued innovation, asphalt provides a **reliable** and **durable weather resistant surface** available in no other medium, fulfilling the needs of both large and small projects.

Asphalt is a **flexible surface** that is more likely to **accept shifting** due to weather extremes and can **resist cracking** commonly associated with other paving systems.

- Churches
- Parks
- Parking lots
- Roadways / Highways
- Residential Driveways

Contact us today for a **complimentary, no obligation quote** to find out how we can extend the life of your surface on your asphalt, concrete, line striping or sealcoating project.

BBI'S ENTREPRENEUR OF THE YEAR

What kind of professional do you like to deal with? Chances are it's someone you've come to trust – even if you haven't actually worked with that person before.

As a CONTRACTOR who specializes in paving, I try to be of service to all in this area and earn their trust – so they'll feel comfortable working with me should they ever need paving help.

How am I doing? Am I earning your trust? Is there anything more I can do to be of service? If so, let me know. I'll be delighted to hear from you!

All the best,

Carlo Simmons, VP Operations & Control, Simmons Paving Co. Ltd.
